PHOTOSHOP FOR BEGINNERS
8-week Program
Tuesday mornings
9:30am to 11:00am
May 10 - June 28, 2022

If you are intrigued by the wonders of photograph editing, this course opens the door to a new world. This 8-week program *offered on ZOOM* introduces you to all the basic Photoshop commands, how they work and how to use them to improve your photos.

OSSCO©'s Training Consultant Richard boosts your confidence both creatively and technically. Program highlights include:

Week 1 General introduction to Photoshop
(The tools, tool bars, options bar and how to use each.)
Week 2 Continue working with specialized tools and tricks
Week 3 Introducing the Bridge cataloguing system
Week 4 Working with layers and the basic building blocks
Week 5 More in depth exploration of the uses for layers
Week 6 How and why mask selections/subjects to fine tune edits
Week 7 Adobe Camera Raw an internal editing tool for use with PS
Week 8 Photo recovery and colourization

Register is required via EventBrite or by email:

education@ossco.org or call 416-785-8570 ex 221

Program is tuition free for people 55+ and offered on ZOOM

A photoshop license is required. If not sure how to purchase, please indicate this when registering.
Must have access to stable internet service, and a camera on your device for Zoom media
